

Which Sailing Camp is Right for Your Child?

The Sailing Center offers three different levels of sailing, learning, and adventure. Our goal is to offer instruction in a safe and enjoyable environment for your children to learn sailing.

Young Beginners

The Young Beginners class is focused on getting your young sailors comfortable on a sailboat and on the water. The goal is to give younger children the opportunity to have fun on the water and build a love and desire for sailing. The ideal age for this class is 6-7 years old.

Beginners

The Beginners class is our learn to sail “crash course”. It is designed for those who have little to no sailing experience yet have the great desire to learn. In this class we focus on the basics and fundamentals and spend most of our time on the water sailing and having fun. The ideal age for this class is 8-17 years old.

Intermediate

The Intermediate class is designed for more experienced sailors with the desire to advance their sailing skills. This class gives sailors the opportunity to further their sailing knowledge, adventure to new destinations, and explore the excitement of racing. All sailors must be able to sail upwind confidently in order to participate in this class. The ideal age for this class is 8-17 years old.
